POTASSIUM PHOSPHATE SOLUTION

0-20-20

Guaranteed Analysis:

Total Nitrogen (N) not less than.....0.00%
Available Phosphoric Acid (P₂O₅).....20.00%
Soluble Potash (K₂O).....20.00%
Derived from Potassium Phosphate

Physical Properties:

pH:.....6.8
Weight/Gallon:.....12.04 lb.
Specific Gravity:.....1.44
Color:.....Light Green
Salt Out Temperature:.....32°F
Solubility (H₂O):.....Miscible

General Recommendations:

POTASSIUM PHOSPHATE SOLUTION is a highly concentrated liquid plant food to be used alone or in combination with UAN solutions and Ammonium Polyphosphate to produce high quality chlorine-free starter fertilizer grades. Use of this product will help promote early growth and a healthy prolific root system.

Directions for Use:

Refer to TSM recommendations for specific mixing directions to formulate starter grade fertilizers.

Mixing Instructions:

Add POTASSIUM PHOSPHATE to the tank last. May be used in combinations with most pesticides. However, it is advisable to use a jar compatibility test. TSM Liquid Starter Mix may be added to this product.

WARNING:

Keep out of reach of children.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty or any other warranty of merchantability of fitness of a particular product, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
