Nutrient Solutions for Ag and Industry

Potassium Phosphate Solution

0-20-20

Guaranteed Analysis:

Total Nitrogen (N) not less than.....	0%
Available Phosphorus Acid (P ₂ O ₅).....	20%
Available Potash (K ₂ O).....	20%

Derived from Potassium Phosphate.

TYPICAL PROPERTIES

pH.....	7.00-7.25
Specific Gravity.....	1.44
Lbs./Gallon.....	12.04
Salt out temperature.....	10°F
Gallons/Ton.....	166
Salt Index.....	6
Color.....	Light Green/ Blue Green
Water Solubility.....	Miscible
O/P ratio.....	90/10

General Information:

Potassium Phosphate solution is manufactured by combining phosphoric acid and potassium hydroxide. 0-20-20 is a highly concentrated nutrient solution to be used alone or in combination with other nutrients and Ammonium Polyphosphate to produce high quality chlorine-free starter fertilizer grades. Use of this product will help promote early growth and a healthy prolific root system.

Information regarding the contents and level of metals in this product is available by calling 1-315-789-5550.

DIRECTIONS FOR USE

The optimum rate will depend on local conditions and should always be made as result of soil/tissue analysis. Consult with your local agricultural authorities for specific use information in your area.

MIXING INSTRUCTIONS

Add Potassium Phosphate to the tank last. 0-20-20 disperses well in water with a minimum of agitation.

For best results mix as follows:

1. Partially fill tank with water or fertilizer and start agitation
2. Add 0-20-20 to circulating tank mix.
3. Add other pesticides if compatible.

While this product is compatible with most pesticides and liquid fertilizers, a compatibility test is recommended if the desired combination has not previously been used. When using pesticides, be sure to carefully read

ATTENTION

Always check compatibility with other products prior to use. 0-20-20 is not compatible with products such as salts of heavy metals like magnesium, copper, manganese, zinc and iron compounds. Do not mix with calcium based fertilizers. Do not apply directly on the seed in saline, alkali, salty or coarse textured soils. Since weather, crops, soil and other conditions may vary, Liquid Products LLC and/or the Seller make no warranty of any kind, expressed or implied concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions

WARNING**

See **FIRST AID** Below

Read Entire Label Before Using This Product

PRECAUTIONARY STATEMENTS

Warning: Causes skin and eye irritation. Harmful if swallowed. Suspected of damaging fertility or the unborn child. Do not get on skin, in eyes or on clothing. Take off contaminated clothing and wash before reuse. If swallowed, call poison center, doctor/physician if you feel unwell. Do not eat, drink or smoke when using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, chewing gum, using tobacco or using toilet.

PERSONAL PROTECTION EQUIPMENT (PPE)

Wear eye protection, face protection, protective clothing and protective gloves.

FIRST AID

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- If skin irritation occurs, get medical advice.

IF IN EYES:

- Rinse cautiously with water for 15 to 20 minutes.
- Remove contact lenses, if present and easy to do so. Continue rinsing.
- If eye irritation persists, get medical attention.

IF SWALLOWED:

- Call a poison control center or doctor if you feel unwell.
- Rinse mouth.

Have fluids ready and call poison control or get immediate medical attention. Do not induce vomiting!
