LIQUID CONTROLLED RELEASE NITROGEN **NBN-X+ Boron**

SUPPLEMENTAL FOLIAR NITROGEN Plus BORON

SPECIAL FORMULATION AIDS CROP GROWTH

Liquid Products LLC liquid controlled release NBN fertilizer is a unique liquid formulation of fertilizer containing 25% Triazone slow release Nitrogen. This special formulation supplies safe supplemental foliar nitrogen at critical stages of plant growth. Plus, 26-0-0.5B is compatible with many crop protection products such as insecticides and fungicides. Always do a jar compatibility test and read label before application.

PRODUCT BENEFITS

- Excellent safe source of supplemental nitrogen
Increase nitrogen absorption
Increase translocation within plant
- Efficient utilization of nitrogen
- Enhance Growth and quality of crops
- Correct nitrogen deficiencies
- Help plants recover from stressful conditions

APPLICATION RATE

- 1-3 gallons per acre applied as a foliar application.
- 1-2 gallons per acre applied as a foliar with insecticides or fungicides.

INGREDIENTS

Total Nitrogen (N)..... 26.0%
 6.6% slowly available water soluble nitrogen
 19.4% urea nitrogen
 Available Phosphate (P₂O₅)0%
 Soluble Potash (K₂O)..... 0%
 Boron (B) 0.5%

DERIVED FROM

Urea, Methylene Diurea, Methylene Ureas, and Soluble Borates
 Weight per gallon is 10.2 pounds. A typical product pH is 8.5-9.5

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.
